Thank you, Erik for your call. Yes, I can confirm that PFAS is not an ingredient in Anvil 10+10 ULV, EPA Reg. No. 1021-1688-8329. Yes, I am comfortable with EPA stating the same whether internally or publicly.

Best regards,
Karen

Hi Karen,

Also as a follow up, are you comfortable with the EPA making the statement "EPA has detailed information on the components of this formulation, and can confirm that no ingredients in the approved formulation are PFAS." This will be as a desk statement for senior leadership, and possibly publicly.

Thanks
Erik

Hi Karen,

Thanks for taking my call and confirming that the product doesn't contain Per- and Polyfluoroalkyl Substances (PFAS). Can you please respond to this email and let me know that it doesn't contain PFAS, that way I have an electronic record that we can send on?

Thanks
Erik Kraft
